

Wootton St. Peters C of E Primary School

Our children become the rocks upon which a better world can be built.

Little Gems Learning Experience Summer Term 1

On The Farm

Communication and Language

We will continue to increase our vocabulary by listening to longer stories, poems and non-fiction books. As well as this we will encourage the children to talk about their experiences of visiting farms using full sentences, including use of past, present and future tenses.

Maths

In maths the children will continue to deepen their understanding of numbers to 10 and will be verbally able to count beyond (20). We will also be looking at 2-D shapes and thinking about weight and capacity.

Class Teachers:
Katie Charles (M/T/W)
Alex Mirrington (T/F)
Teaching Assistant:
Joe Martin

Literacy

Writing- The children will continue to write recognisable letters (Nursery and Reception) and will be encouraged to write simple phrases and sentences (Reception).

Reading- Reading books will be changed on a Monday. The children will continue to have daily RWI sessions to help them to say a sound for each letter and learn some new digraphs (special friends). We will also read high quality picture books every day and the children are able to self-select any books from the reading corner.

Books we will be looking at this term in Drawing Club:

Physical Development

This term we will have cycling on a Monday and PE will be on a Wednesday where we will continue to work on our fundamental movement skills (running, hopping, jumping, and skipping).

Expressive Art and Design

The children will continue to explore different materials and resources. We will explore paint, junk modelling and drawing. This term we will also be doing some cooking.

Personal & Social Development

We will be thinking about healthy eating this term and will be able to name some healthy foods.

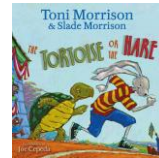

Understanding The World

We will be learning about different types of farms around the world and why their produce is important to our everyday lives. The children will begin to make observations about farming in different seasons and what this may look like.

RE

In RE this term, we will be thinking about what we can learn from lots of different stories.

Ways to help your children:

Please continue sharing and discussing stories with your children at home.

Encourage your children to mark make and draw at home to help with their fine motor skills. Can they add details to their drawing?

Counting to 10 and back (or 20 if they feel confident).
