24 Stories for Advent
by Brigitte Weninger

Communication & Language

The children will explore and learn new vocabulary through stories, poems and class discussions. We will listen carefully and anticipate key events and respond to what we have heard. We will ask and answer questions, using tenses correctly

Literacy

The children will continue learning their initial sounds and new words during daily Phonics lessons. Drawing Club will help them understand and personalise stories. We will practice our poems for Remembrance Day. We will read lots of stories about Christmas.

0 1 2 3 4
5 6 7 8 9 Maths

This term will look at composition of the numbers 1-5. Children will investigate different shapes, such as circle, triangle, square and rectangles and also create repeating patterns.

Physical Development

The children will build up a repertoire of songs and simple dances. They will be confident enough to sing and perform these dances in a group. They will also be able to adapt and change each dance, thinking about the mood and style.

Understanding the world

Our roleplay corner will be set up as a GP surgery, where the children can care for each other and use their new vocabulary to talk about feelings and emotions.

RE

This term we will talk about 'incarnation' and why Christians perform Nativity plays at Christmas. We will also learn about Diwali.

Expressive Arts and Design

Our focus artists of this term are Wassily Kandinsky and Gustav Klimt where we will explore shapes and rainbow colours. We will also find out what the three prime colours are and how we can use them in our art. Later on in the term, the children will create crafts related to Christmas

Personal, Social and Emotional Development

Valuing Difference and talking about our own feelings and emotions will be the core of our learning this term. We will discuss same and different families and homes as well as ways to be a good friend.
